We have tremendous supply capacity for Palm Oil and its byproducts at very low costs since we are located in Southeast Asia (SEA), namely in Indonesia, near to Malaysia, and because we are both the world's largest producers of Palm Oil.

Apart of being producer, we are part of an extended network who allows us to connect to the regional major mills, providing bigger quantities of any palm related products. We are prepared to supply you with the highest quality products at the most competitive prices.

The available specifications are listed below however we can also provide custom specifications (only for certain products).

PORAM Standard

Free Fatty Acid : 5% (Max)
Moisture & Impurities : 0.25% (Max)
Saponification Value : 195 – 205

lodine Value : 50 - 55

Melting Point : Preferably 33°C and not more

than 39°C

Refractive Index at 50°C : 1.4491 – 1.4452

Unsaponifiable Matter : 1.2% (Max) Specific Gravity at 42°C : 0.895 – 0.987

DOBI : 2.3 Min

Can be processed into

Bio-Fuels

Food Industry

Glycerin • Cosmetic/Pharmaceutical

HACPO High Acid Crude Palm Oil

HACPO or High Acid Crude Palm Oil is the result of the production of crude palm oil with fresh fruit bunches with higher levels of acidity.

This high level of acidity is caused from the land, rain or time that the producer waited before processing that fruit.

PAO | Palm | Acid Oil

Palm Acid Oil or PAO is a biofuel feedstock derived from Palm Oil Mill Effluent (POME). Palm Acid Oil is a byproduct who comes from the Crude Palm Oil production at the Palm Mills.

PKS | Palm | Kernel Shell

Palm Kernel Shell as a biomass.

Packaging:

- 50 kgs PP Bags
- Bulk Container
- Bulk Vessel

Member of APCASI (Member No. B-054/APCASI/10/2022) Association of Palm Kernel Shell Entrepreneurs of Indonesia

Palm Kernel Expeller for animal feed.

Packaging:

- 50 kgs PP Bags
- Bulk Container
- Bulk Vessel

ISCC Certification

Being in the Palm Oil business isn't only about profit. It's also about the concern in having a sustainable business which led us to achieve the ISCC Certification in early 2021.

Since then, we can certify our POME from sustainable sources, respecting and contributing for a cleaner environment by reusing the waste from palm mills into the production of Biofuels.

Business Agglomeration

In 2021, despite all the constrains caused by the pandemic, we experienced a fast growth in our businesses which brought us to the creation on a business agglomeration under the signature of:

PESUD PLANTATION

It is our philosophy to give back to the less fortunate. In order to follow through our philosophy, periodically we donate to causes that we care about such as Orphanages, kindergarten, Victims of disasters, Others.

Environmental

Being a B3 licensed company we proud ourselves to contribute for a greener and cleaner environment through our Mill Effluent's Mill cleaning service.

This service consist in removing the palm mill's waste and process it in order to channel it to the Biofuels industry through FAME's factories.

Our mills also reintroduce al the wastes to the plantations, so it is used as fertilizers. (EFB & Ashes)
